Subject: Re: CES: Dynamic Equipment

Ritchie Bro inventoried the site prior to my involvement and their inventory does not reflect FT575 or VB2566.. Therefore, they were removed from the site prior to my involvement

Subject: CES: Dynamic Equipment

Mickey:

Dynamic indicated that their records show the following equipment should be on-site at CES but some of the equipment is not on-site. I have looked through the inventory that you previously provided me but did not see it. I was wondering if you have any other records that show the equipment that is currently not on-site so we can help them locate the equipment.

Equipment Actually On-Site: FT506, VB2567, VB25141

Equipment Listed On-Site By Dynamic but not On-Site: FT575, VB2566

Thanks for you help,

Gary Moore
